DETAILED ACTION

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the claimed means must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections

A version of the amended claim with markings to show changes is absent. Applicants should provide a marked up version of all amended claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 10, 27, 37 and 38 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: The structural relationships of the claimed means are absent and not shown in the drawings.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: The patent to Lindermann (US 5,575,907) does not disclose or suggest fusing means and Melin et al (US 4,401,463) does disclose fusing means but does not disclose or suggest fusing means to add calcium or a reduction fusing device and a decarbonizing device and neither Lindermann nor Melin et al disclose an oxidizing means to oxidize cathode material at a temperature lower than 300°C.

Claims 2, 10, 27, 37 and 38 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
